### **Summary**

S and Y Industries, Inc. has an immediate opportunity for a Buyer.

This position is responsible for purchasing, expediting, and monitoring status of electronic components and various supplies for assigned projects.

This Buyer is responsible for component purchasing and operations support to maintain inventory at planned levels to achieve production schedule. Performs tasks involved in the formation, administration/expediting, and delivery of purchase orders. Communicates with suppliers and personnel within company to establish clear definition of requirements and to assure performance to purchase order terms and conditions. This includes negotiating component purchases from suppliers as well as issuing and evaluating vendor quotes to determine the best quality suppliers. This role includes procurement activity as well as project management of custom equipment orders. This is a “hands-on” role – expect to work directly with receiving, production, engineering, and other departments to fulfill job responsibilities.

### **Responsibilities**

- Purchases and manages inventory levels of all materials to optimize delivery.
- Prepare purchase orders, evaluate bids based on quality, service capability and price.
- Track released material, quantities, and price against BOM and budget.
- Maintain accuracy of purchasing database information.
- Daily review of reports and forecasts to ensure all components are on order.
- Expedite and ensure timely delivery and back-order follow-up to maintain schedules.
- Executes strategies and procurement programs to support production goals.
- Coordinates, conducts, and participates in meetings and discussions between suppliers and necessary related personnel concerning supply, delivery, or quality.

- The duties and responsibilities are intended to describe the general nature and scope of work being performed by this position. This is not a complete listing and other duties will be assigned based on the position's role.

**Requirements:**

- 2 years of related procurement and planning experience.
- Proficiency with ERP systems, software, including Microsoft Office.
- High level of responsibility, analysis, and independent decision-making is expected.

**Knowledge, Skills, and Abilities:**

- Ability to prioritize and manage multiple tasks, changing priorities as necessary.
- Ability to work under time pressure and adapt to changing requirements with a positive attitude.
- Effective oral and written communication skills as required for the position.
- Ability to be self-motivated, proactive and an effective team player.
- Ability to interact effectively and professionally with all levels of employees, both management and staff alike, vendors, clients, and others
- Negotiate contracts with suppliers.
- Strong team skills and ability to work and thrive in a fast-paced office atmosphere.

**What we have to offer:** S and Y has a competitive compensation plan, including a bonus opportunity. We also offer a paid comprehensive benefits package, including medical, dental, vision, life insurance, matching 401(k), paid holidays and PTO.
